Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: Googol
- Certification: CE, FAD, ROHS
- Model Number: p4

Product Specification

- Luminance: $\geq 800\text{cd/m}^2$
- Product Name: Customized Special-shaped LED Display
High Flexibility And Good Display Effect P4
- Communication: Synchronous/ Asynchronous
- Powersize: 5V 40A
- Viewing Angle (V/V): $140^\circ(\pm 10^\circ)$
- Viewing Angle (H/V): $140^\circ(\pm 10^\circ)$
- Cabinet Weight: 4.5kg/8.5kg
- Module Size: 300*300*300mm
- Highlight: Customized Shape LED Screen, 5V LED Screen,
40A LED Screens

Product Description

Product Description:

With an average power consumption of just 200W/m², our individual-shaped LED message screen is an energy-efficient choice that won't break the bank. It is also designed to operate in a wide temperature range, making it suitable for use in a variety of environments.

Whether you need to display your message indoors or outdoors, our customized special-shaped LED display is up to the task.

Our bespoke LED display board also features a high luminance of at least 800cd/m², ensuring that your message will be visible even in bright sunlight. The viewing angle of our custom contour video display is also impressive, with a horizontal/vertical viewing angle of 140°(±10°) and a vertical-only viewing angle of 140°(±10°). This means that your message will be visible from a wide range of angles, ensuring that it catches the eye of everyone who passes by.

Don't settle for a boring, traditional display that blends in with the crowd. Stand out from the competition with our customized special-shaped LED display, designed to showcase your message in a way that is as unique as your business. Contact us today to learn more about our bespoke LED display board and how it can help you make a lasting impression on your target audience.

Features:

Product Name: Customized Special-shaped LED Display

Max Power Consumption: 550W/m²

Viewing Angle (V/V): 140°(±10°)

Input Voltage(AC): 110~240V, 50~60Hz

Cabinet Weight: 4.5kg/8.5kg

Operating Temperature: -20°C~+50°C

Features:

Can be tailored to different shapes and sizes for a bespoke led display board

Customizable led digital billboard with high power efficiency of 550W/m²

Wide viewing angle of 140°(±10°) for optimal visibility

Compatible with input voltages ranging from 110~240V, 50~60Hz

Lightweight cabinet design weighing only 4.5kg/8.5kg

Can operate in temperatures ranging from -20°C~+50°C

Technical Parameters:

Product Category:	Customized Special-shaped LED Display
Pixel Arrangement:	150*130/300*260
Module Size:	300*300*300mm
Pixel Density:	62500dot/m ²
Pixel Pitch:	P4
Viewing Angle (H/V):	140°(±10°)
Grey Scale:	14 Bit
Max Power Consumption:	550W/m ²
Cabinet Weight:	4.5kg/8.5kg
Input Voltage(AC):	110~240V, 50~60Hz

This is a shape-customized led screen with tailored led video display module, suitable for personalized-shaped led signage.

Applications:

The tailored LED video display module is perfect for any occasion where displaying information or multimedia content is needed. The P4 pixel pitch provides a high-quality image, ensuring that the message is conveyed without distortion. This feature makes it ideal for indoor or outdoor events, such as concerts, sports events, product launches, and conferences. Additionally, the communication options available for this product, synchronous or asynchronous, give users the flexibility to adapt it to their specific needs.

Another valuable feature of Googol's customized special-shaped LED display is the ability to create individual-shaped LED message screens. This feature enables businesses to create a unique and visually appealing message screen that will catch the attention of potential customers. The viewing angle of 140° (±10°) ensures that the message can be seen from various angles, which is ideal for advertising purposes. Moreover, the P4 pixel pitch provides a high-resolution image, ensuring that the message is clear and legible. Googol's customized special-shaped LED display is not only a practical solution for displaying information or advertising, but it is also a form of LED display art. Its ability to create individual-shaped LED message screens allows businesses to showcase their creativity and imagination. This feature makes it an ideal product for art exhibitions, museums, and other cultural events. Additionally, the P4 pixel pitch provides a high-resolution image, allowing artists to display their work with great detail.

In conclusion, Googol's customized special-shaped LED display, model number P4, is a versatile and innovative product that can be used in various occasions and scenarios. Its features, such as the tailored LED video display module, individual-shaped LED message screen, and LED display art, make it an ideal solution for businesses and individuals looking for a high-quality LED display. Its CE, FAD, and ROHS certification guarantee the quality and safety of the product, which is manufactured in Shenzhen, China.

Support and Services:

Our Customized Special-shaped LED Display product comes with a comprehensive technical support and services package to ensure smooth operation and maximum performance. Our technical support team is available 24/7 to provide assistance and resolve any issues that may arise. We also offer on-site installation and training services to ensure that our customers are able to use the product to its fullest potential. Our maintenance services include regular check-ups and repair services to keep the product in optimal condition. Additionally, we provide software and firmware updates to ensure that the product is up-to-date with the latest features and improvements.

Packing and Shipping:

Product Packaging:

The customized special-shaped LED display product will be packaged securely to ensure its safe delivery. The package will include:

Customized special-shaped LED display product

Power cable

Control system

Installation hardware and accessories

User manual and warranty card

Shipping:

The customized special-shaped LED display product will be shipped via a reliable and trustworthy courier service to ensure timely and safe delivery. The shipping process will include:

Packaging of the product

Labeling of the package with the shipping address and contact information

Tracking of the package until it reaches its destination

Customers can track their package using the tracking number provided after the product has been shipped.

FAQ:
