Product Description

Product Description:

The Transparent LED Display boasts a brightness of 5000Nits, ensuring that your message is visible even in bright daylight. The high IP rate of IP65 also ensures that the display is protected from dust and water, making it ideal for outdoor use in any weather condition.

One of the best features of this product is its back and front maintenance. This means that the Transparent LED Display can be easily accessed from both the front and back, making it easy to clean and maintain. This feature also ensures that any issues with the display can be easily fixed without having to disassemble the entire unit.

Overall, the Innovative Transparent LED Signage is the perfect solution for any business looking for a modern and eye-catching way to promote their products or services. With its high brightness and physical pitch, the Transparent LED Display is sure to grab the attention of anyone passing by. And with its high IP rate and easy maintenance, this product is designed to last for years to come.

High IP Rate IP65	Yes
Panel Size	500(W)×1,000(H)×68.5(D)mm

Applications:

One of the standout features of the Googol P10.4 Transparent LED Display is its low power consumption, making it an energy-efficient choice for businesses and organizations. Additionally, the product is designed for easy back and front maintenance, allowing for quick and hassle-free repairs or updates to the display content.

The ultra-light and thin design of the Googol P10.4 Transparent LED Display make it an ideal choice for a range of applications, including use in retail store windows, museums, and art galleries. The product's horizontal viewing angle of 140° ensures that it can be viewed from almost any angle, making it perfect for use in busy public spaces.

The Googol P10.4 Transparent LED Display has an IP rating of IP66 for both the front and rear, making it a durable and versatile product that can be used in a variety of weather conditions. Whether it's rain or shine, this product is built to withstand the elements and provide reliable performance.

Overall, the Googol P10.4 Transparent LED Display is a versatile and reliable product that can be used in a range of settings. Whether it's for a high-traffic retail environment, an updated transparent LED information board, or a museum exhibit, this product is sure to impress. So why not consider the Googol P10.4 Transparent LED Display for your next project?
