

Unmatched Advertising Performance Transparent LED Display 50mm

Our Product Introduction

for more products please visit us on googolled.com

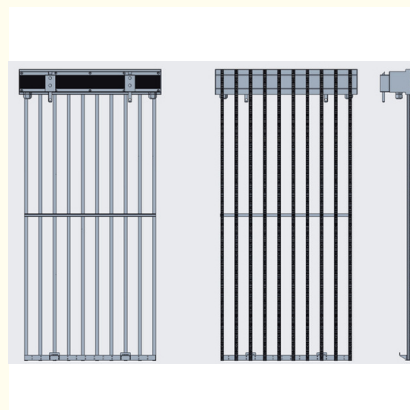

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: Googol
- Certification: CE, FAD, ROHS
- Model Number: P25-50

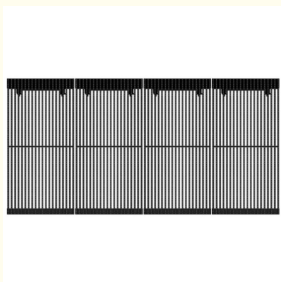

Product Specification

- Pixel Pitch: (H)50mm (V)25
- Best Viewing Distance: 10-350M
- LED Configuration: DIP 346
- Refresh Frame Frequency: 60HZ
- Unit Cabinet Size: 500(W)/1000(W)*1000(H)
- Drive Mode: Constant Current Static
- Highlight: **50mm Transparent LED Display, Transparent LED Display P25, P50 led transparent screen**

Product Description

Product Description:

The drive mode of the Transparent LED Display is constant current static, ensuring that the unit operates efficiently and effectively. The LED Configuration of this led product display is DIP 346, which is known for its high brightness and energy efficiency. This makes the transparent LED display ideal for use in environments where high levels of brightness are required, such as in outdoor advertising and large-scale events.

The unit cabinet size of the Transparent LED Display is 500(W)/1000(W)*1000(H), which makes it easy to install and configure. The compact size of this used LED display ensures that it can be used in a variety of settings, including small retail stores and outdoor events. Additionally, the transparent design of this led light display allows for a high degree of customization, making it easy to integrate into any environment.

Overall, the Transparent LED Display is a versatile and reliable product that is ideal for a wide range of applications. Whether you are looking for a used LED display for a small retail store or a large-scale event, this product is sure to meet your needs. With its high refresh frame frequency, constant current static drive mode, and DIP 346 LED configuration, you can be sure that you are getting a high-quality product that will provide exceptional performance for years to come.

Features:

Product Name: Transparent LED Display

Product Category: led light display, led display cabinet

Maintenance: 3 minutes/m2 easy maintenance

Viewing Angle: H/V≥110° V/V≥50°

Pixel Pitch: 15.625mm

Refresh Frame Frequency: 60HZ

Technical Parameters:

Part Number	P25-50	Part Number	P25-50
Pixel Pitch	(H)50mm (V)25	Best Viewing Distance	10-350M
LED Configuration	DIP 346	Refresh Frame Frequency	60HZ
Unit Cabinet Size	500(W)/1000(W)*1000(H)	Drive Mode	Constant Current Static
Unit Resolution	40(W)*10(H)/20(H)dot	Input Voltage	AC 220-264V
Resolution Ratio	400/800dot/㎡	Control Mode	Synchronous Asynchronous
Unit Cabinet Weight	5KG/1PCS	Lifespan	100,000h
Square Meter Weight	10dot/㎡	Mask Material	PC+Cellulose+Steel
Unit Cabinet Thickness	7.6CM	Cabinet Material	6063 Stretched Aluminum
Before Maintenance Installation Thickness	11.6CM	Hollow Ratio	78%
Max. Power Consumption	240W/㎡	IP Rate	IP67
Average Power Consumption	80W/㎡	Heat-dissipating Method	The Shell Structure Enhances Heat Dissipation
Luminance	≥10000CD/㎡	Operating Temperature	-35°C~ +85°C
Temperature Color	2000-9000K	Storage Temperature	-55°C~ +120°C

Gray Scale	14bit	Installation	Tool Installation
Intensity Control	5%~100%	Fire Rating	V0
Viewing Angle	H/V≥110° V/V≥50°	Maintenance Mode	Front/Back

Applications:

With its H/V≥110° V/V≥50° viewing angle, Googol P15 Transparent LED Display offers a wide viewing angle, making it perfect for large crowds. Its best viewing distance of 10-350M makes it ideal for outdoor events, stadiums, and arenas.

The pixel pitch of 15.625mm ensures that the display is clear and vibrant, making it suitable for advertising and promotional events. The waterproof rating of IP65 ensures that the display is protected from the elements, making it ideal for outdoor use, regardless of the weather.

Weighing only 1/3 of traditional screens, Googol P15 Transparent LED Display is lightweight and easy to transport. This makes it perfect for events and conferences where it needs to be set up and taken down quickly.

The transparent design of the display allows for creative designs and unique application scenarios. It can be used as a backdrop for concerts, fashion shows, and other events, offering a dynamic and immersive experience for the audience. It can also be used as a storefront display, allowing businesses to showcase their products in a visually stunning way.

Overall, Googol P15 Transparent LED Display is a versatile and high-quality product that can be used in a variety of occasions and scenarios. Its unique design and features make it a popular choice for those seeking to make an impact with their LED light display.

Support and Services:

Our Transparent LED Display product comes with a comprehensive technical support and service package to ensure your satisfaction and success. Our team of experts is available to help with any technical issues or questions you may have, providing prompt and effective solutions to keep your display running smoothly. Our services include installation and maintenance assistance, training and education on product usage, and repair or replacement services as needed. We are committed to providing the highest quality support and services to our customers, and we are here to help you every step of the way.
