## Product Description

**P1.5 Indoor Rental LED Display High Quality Product**

Introduction to P1.5 Indoor Rental Screen
With the development of technology, LED display screens have become an indispensable element in modern business and activities. P1.5 indoor rental screens are favored by more and more companies and event organizers for their ultra-high-definition picture quality and flexible application scenarios.

High-definition display effect
P1.5 represents more than 400,000 LED lamp beads per square meter, with extremely high resolution, which can present delicate images and text. This makes P1.5 screens very suitable for conferences, exhibitions, performances and other occasions that require high-definition visual experience.

Flexible installation and removal
The design of the rental screen takes convenience into consideration. The P1.5 screen adopts a modular structure and can be quickly installed and disassembled to meet the needs of various venues. This flexibility makes the rental screen an ideal choice for short-term activities, saving time and labor costs.

Diverse application scenarios
P1.5 indoor rental screens are widely used in various occasions such as corporate press conferences, concerts, weddings, exhibitions, etc. It not only attracts the attention of the audience, but also enhances the brand image and conveys information.
