Product Description

Product

The P2.9 indoor rental LED display is a high-quality indoor display solution designed for commercial activities, conferences, performances and other application scenarios, with excellent display effects and high durability. Its main features include: IP35 protection level: Adopting IP35 protection design, it has good dust and moisture resistance, adapts to various complex indoor environments, and extends the service life of the product.

Brightness 600-800nit: Provides a brightness range of 600 to 800 nits, presents a stable brightness effect in the indoor environment, ensures clear visibility, and can effectively control light pollution.

SMD1515 lamp beads: Adopting SMD1515 lamp bead technology, it achieves a finer pixel density, ensures color uniformity and true image restoration, and is suitable for high-resolution close-up viewing.

Convenient installation and maintenance: The design is light and thin, easy to install and disassemble quickly, and supports frequent venue layout and event needs.

With its high definition, durability and excellent display effect, the P2.9 indoor rental product is an ideal choice to meet the needs of various high-end events.
