Product Description

Product

Our P3.9 indoor rental LED display uses high-performance SMD2020 lamp beads, with excellent color performance and high brightness, suitable for various indoor occasions, such as meetings, performances and exhibitions. The product supports front and rear maintenance, and the convenient and fast maintenance method greatly reduces the difficulty of operation and downtime, ensuring continuous and stable operation.

In addition, the P3.9 screen refresh rate is as high as 3840Hz, which can effectively reduce screen flicker and enhance the visual experience, especially in high-definition picture playback and live broadcast scenes. Whether it is short-term rental or long-term use, P3.9 can provide excellent display effects and reliable performance, becoming your ideal display solution.
