Product Description

Product

The P2.6 indoor rental soft connection series is a high-performance LED display screen, which is particularly suitable for various indoor rental scenarios. The product supports SMD1515 and SMD2121 lamp bead configurations, with delicate picture quality and true colors to meet the needs of different environments. The installation methods are flexible and diverse, supporting stacking, hanging, wall mounting and ground mounting, with strong adaptability. The display screen has a refresh rate of up to 3,840Hz, presenting a smooth and flicker-free picture effect, enhancing the viewing experience. The IP35 protection level ensures the product's dustproof and waterproof performance during indoor use, and is suitable for occasions such as conferences, exhibitions, and performances that require high-quality images.
